Message

Back in 1996, Corbus mill began production of a wide range of steel products including equal angles, flat-bars, square-bars, rebars and plain bars. It was notably the first company in the Iskenderun region to obtain ISO quality certification for its entire product range, and at the time production capacity peaked at 150,000 metric tons per annum.

In 2010, Corbus was entering a new era. After restructuring management and an extensive modernization of our production facilities, steel production capacity has been 500,000 metric tons per annum. Our group of companies - Corbus Steel Ltd. and Corbus Trade Inc. - proudly contributes to the national economy, advocates for the betterment of its local economies, and embraces environmental responsibility. Our foreign trading firm "CorbusSteel Ltd." and domestic trading firm "Corbus Trade Inc." serve customer needs according to a philosophy of integrity and ethics. We create customer value by maintaining a clean corporate culture and focusing on mutual prosperity. According to these practices, we aim to become the benchmark in the World Steel Industry. Best Regards. Salim METIN Chairman Of The Board

Capacity and experiences!
Corbus is listed as one of the top ten exporter of steel products in Turkey and among top 500 industries in Turkey! As of today, our products are exported across the world for more than 110 countries. In particular, our products cover major proportion of the demand of steel products developing countries which are under going vast construction of infrastructures.

For instance in East Africa, steel products of Corbus have been familiar for the past 20 years in the market of this region, and thus, up to 80% of Djibouti's total demand of rebar and 50-60% of total rebar demand of Ethiopia and Somalia is being covered by our products. Our reason behind our customers' satisfaction is not only the quality of our products, it is our CONTINUOUS AND ON-TIME DELIVERY with absolute flexibility in PACKING AND BUNDLING which is AS PER CUSTOMER REQUEST that enabled us to serve OVER 5,000 MT LOADING PER DAY!

In addition, Corbus is not just trader, it is a manufacturer of steel products which by itself is a comparative advantage for our customers. The free trade Zone we have availed for our customers, at Djibouti (@DFTZ and UKAB) have solved the usual barrier of logistics process and it busted a speed of our customers to reach their target market on time!

QUALITY STANDARDS and CERTIFICATES
Our company is certified by various quality standards for its entire product range!
DIN 17100, ASTM A36, ASTM A529 GR 60, FEE 360 B, S235 JR S275JR, S355JR AND OTHER INTERNATIONAL QUALITIES!

CERTIFICATES:
TSE ISO 9001 QUALITY MANAGEMENT SYSTEMS
ISO 14001 ENVIRONMENTAL MANAGEMENT SYSTEMS
OHSAS 18001 Occupational Health and Safety Zone

EXPERIENCED STAFF
BELIEVE, TRUST / CROIS, CONFIANCE
We believe, without reservation, that our employees-production and management are among the best in the world today. We are proud of the innovation, hard work and powerful advantages to our company. Their desire to succeed and ability to achieve excellent levels of performance are powerful advantages to our company.

Hard work is a Philosophy that defines us!
