

We extend our greetings and appreciation to all of you in this pioneering gathering in Ethiopia. We, at Al-Haleef Company, are proud to participate in this Exhibition and we look forward to enhancing cooperation and partnership with all attendees.

The basic materials industry is the backbone of any prosperous economy, and it plays a crucial role in achieving stability and security in the region. We are proud of our vision (Saudi Vision 2030) that focuses on achieving sustainable development and a diversified economy, which is highly dependent on industry, and with which our mission is consistent, which focuses on providing modern solutions to contemporary needs.

We seek to achieve economic growth and stability, not only at the national level, but also at the regional level.

We believe that regional security and stability can be achieved through cooperation and economic integration between neighboring countries and the region. We welcome cooperation to exchange interests, strengthen and revive economic relations, and restore prosperity to the region.

Industry is the driving force for economic growth, and it is the foundation that enables us to achieve sustainability and stability. So, let us work together to strengthen industry in our region, and make it a force for good and progress

Thank you to all those organizing this distinguished and pioneering exhibition (BIG5 ETHIOPIA 2024)

Thank you all
